- (3) We will use daily inventory A file for conversion and download alldlyinventoryFRI.zip file as the example. Click on download at the far right hand side of the page.

The screenshot shows a web browser window with the URL sod.lcbo.com/option/12. The page header includes the LCBO logo and navigation links: Sale of Data, Data, Reference Material & Forms, and Fiscal Calendar. The main content area is titled "Option Documents" and states "The selected option contains the following documents:". Below this, there is a "Show 10 entries" dropdown and a "Search" button. A table lists the documents with columns for Document Name, Uploaded At, and Download. The table contains 7 entries, with the first one being "alldlyinventoryFRI.zip" uploaded on 11/15/2019 at 01:58 (Fri). A "Showing 1 to 7 of 7 entries" message is at the bottom of the table.

Document Name	Uploaded At	Download

alldlyinventoryWED.zip	11/20/2019 @ 02:12 (Wed)	Download

- When downloaded, it will be available in a zipped file as shown below.

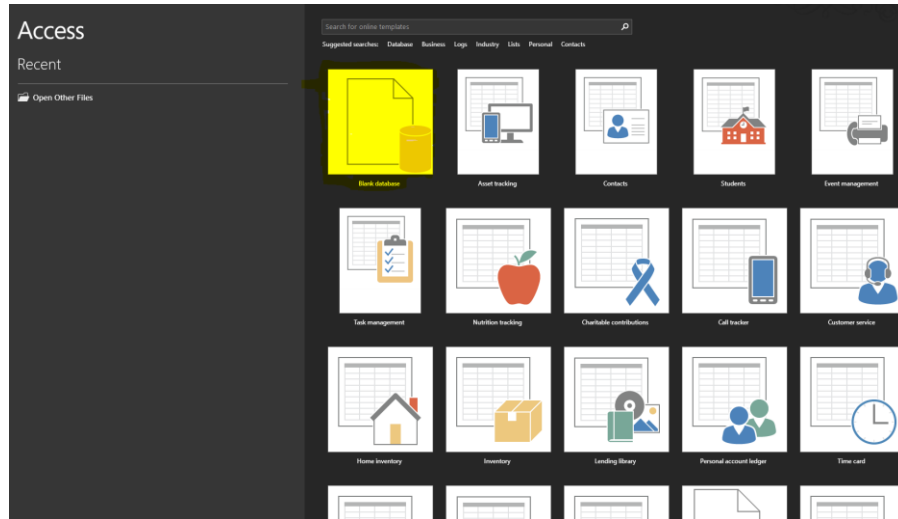

The screenshot shows a file explorer window with a table of files. The table has columns for Name, Date modified, Type, and Size. A single file is listed: "alldlyinventoryFRI" with a date modified of "2019-11-21 12:05 ..." and a size of "12,489 KB". The file type is "Compressed (zipp...)".

Name	Date modified	Type	Size
 alldlyinventoryFRI	2019-11-21 12:05 ...	Compressed (zipp...)	12,489 KB

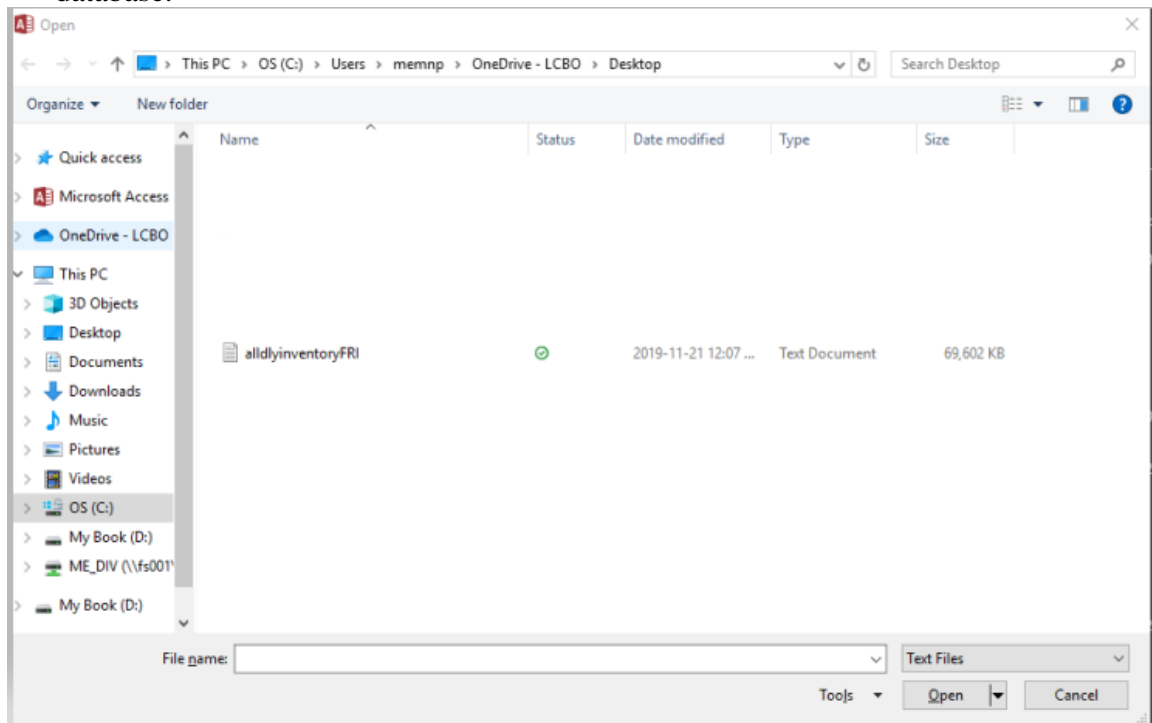

- (4) Once the file has been unzipped, save the document on to your desktop and right click and select 'open with' and select 'Notepad' as the program to open the file as a text file.

(5) Open Access and select blank database as highlighted in yellow.

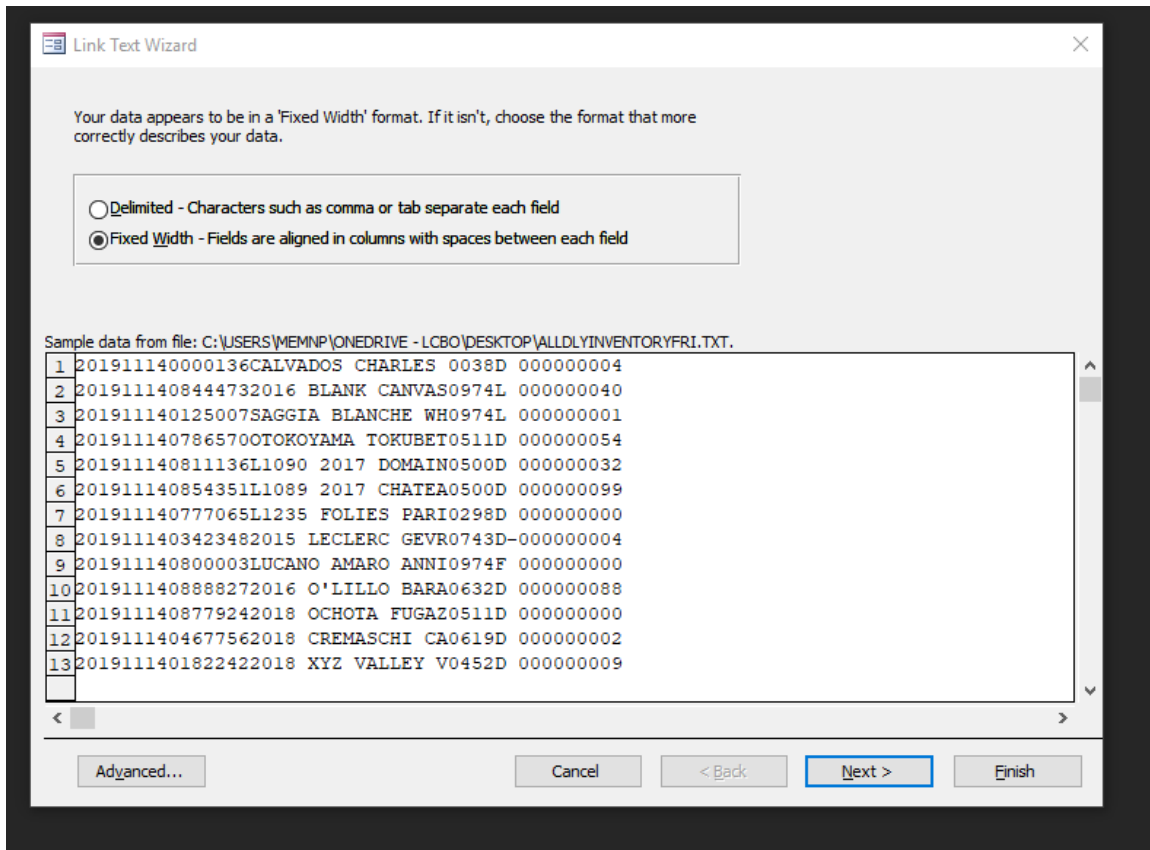

(6) Click on 'File' Tab at the top left corner of the data base and select 'Open'.

(7) Find the file where it is saved and change the file type to text files in order to see the text file that was saved earlier and click 'Open' to view the file in access database.

(6) Choose Fixed Width. Go to your LCBO SOD Record Layout guide (located under Reference Material & Form on the second page) to check for the column size of each field.
